

Equity Adaptation Menu

Practical supports to adapt AI-generated lessons for diverse learners

Language & Literacy Supports

- ☐ Word banks with key vocabulary (include visuals where possible)
- ☐ Sentence frames/starters for discussion and writing
- ☐ Bilingual glossaries or translation tools (when appropriate)
- ☐ Chunked text with guiding questions

Visual & Multimedia Supports

- ☐ Diagrams, charts, and labeled images
- ☐ Short science videos to clarify abstract concepts
- ☐ Graphic organizers (e.g., Venn diagrams, flow charts)
- ☐ Slide decks with visuals paired to key terms

Differentiation & Access

- ☐ Tiered question sets (basic, intermediate, advanced)
- ☐ Modified reading levels for worksheets
- ☐ Options for audio narration or read-aloud support
- ☐ Extended time or flexible pacing notes

Engagement & Student Voice

- ☐ Think-pair-share prompts
- ☐ Quick 'Checks for Understanding' (poll, exit ticket, thumbs-up/down)
- ☐ Opportunities for choice (topic, product, or modality)
- ☐ Culturally relevant or locally contextual examples

Extension & Challenge

- ☐ Optional challenge problems for advanced learners
- ☐ Inquiry extensions (design an investigation, model, or data analysis)
- ☐ Cross-disciplinary connections (math, literacy, environmental science)
